

# STUMP GUN

## Vertical Stump Grinder

Bandit Industries is proud to announce the arrival of the Stump Gun, a powerful **stump grinding attachment** that fits on the front of any skid-steer loader that accepts a universal attachment plate. Developed by New River Equipment and sold by Bandit Industries, the Stump Gun **increases the utility** of an already versatile machine in use all over the world.

### MANEUVERABLE AND POWERFUL

- **Powerful Stump Grinder Option**
- **Easy to use design** with minimal upkeep
- High-speed shaft spins at **up to 2500 RPM**

### Versatility Comes Standard

The Stump Gun is powered by the skid-loader's existing high-flow hydraulic system, which turns a 5-1/4" diameter shaft outfitted with nine carbide teeth. The shaft spins at up to 2500 RPM, or about 41.6 feet per second, to **grind away stumps of any size**.

### High Power With Low Maintenance

Bandit's Stump gun delivers all the **stump grinding power** demanded by professionals, without all the maintenance normally associated with stump grinders. In terms of regular maintenance, operators only have to worry about greasing the attachment and replacing worn teeth.

### If you have a skid-steer loader, you can have a stump grinder

Any skid-steer loader that accepts a **universal quick attach plate** can have a powerful stump grinder. The Stump Gun mounts to the front of almost every make and model skid steer loader in seconds, and **easily attaches** to the auxiliary hydraulic systems. Connecting the Stump Gun literally takes seconds.

### Specifications

#### Dimensions:

Length:	5' 6"	Height:	2' 6"
Width:	3' 9-1/2"	Weight:	1,224 lbs.

#### Cutter Shaft:

Diameter:	5-1/4"	Cutter Depth:	22"
-----------	--------	---------------	-----

#### Hydraulics:

Skid-steer must be able to pump at least 17 gallons of hydraulic oil per minute
